Frontend Development: HTML, CSS, SCSS, JavaScript, React.js, Redux, Bootstrap, UI/UX Enhancements.

Tools: Visual Studio Code, Git, ChatGPT

WORK EXPERIENCE

Cartoon Mango Studios

Frontend Developer

Coimbatore

Jul 2024 – Jul 2025 (1Yrs)

- Designed and developed a complete Attendance Management Website for internal company use using React.js and Redux.
- 1 year of hands-on experience developing responsive web applications using React.js and modern front-end technologies.
- Collaborated with senior developers, followed Agile methodology, and participated in team stand-ups and reviews.

PROJECT EXPERIENCE

Spot Check

Employee Spot Check & Attendance Portal

- Designed and developed a complete Attendance Management Website for internal company use using React.js and Redux.
- Created key modules including employee check-in/check-out, calendar view, Change Work Location, and regularization request forms.
- Built dynamic components and handled DOM manipulation for interactive features like modals, sliders, and dropdowns.
- Integrated REST APIs for dynamic data handling and real-time updates.
- Implemented clean UI using Ant Design and ensured responsive layouts.

E-commerce Site

- Built an interactive landing page for an e-commerce platform using HTML, CSS, and JavaScript.
- Used media queries and mobile-first design approach to ensure full compatibility across devices.
- Implemented search functionality and sorting for enhanced user experience.
- Incorporated a responsive grid system to ensure adaptability across devices
- Deployed the project on a cloud-based platform (e.g., Netlify), ensuring smooth accessibility and reliable uptime.

EDUCATION

BSC – INFORMATION TECHNOLOGY

June – 2024

HINDUSTHAN COLLEGE of ARTS & SCIENCE

INTERESTS

- Tech & Hardware – Skilled in handling technical challenges that involve coding, hardware setup, and system optimization.
- Technology Enthusiast: Frond-end-developers with new tools and frameworks.
